This memorandum documents the various operational components covered in the Data Products and Dissemination operation. These components include 2020 Census products planning, the implementation of formal privacy protection techniques for disclosure avoidance, the preparation and delivery of Apportionment data to the President, the tabulation and dissemination of each state's Redistricting data, as well as tabulation and dissemination of all other data products not constitutionally mandated such as the Island Areas Censuses data products, and the dissemination innovations underway in the Center for Enterprise Dissemination Services and Customer Innovation.

### The 2020 Census Memorandum Series

The 2020 Census Memorandum Series documents significant decisions, actions, and accomplishments of the 2020 Census Program for the purpose of informing stakeholders, coordinating interdivisional efforts, and documenting important historical changes.

A memorandum generally will be added to this series for any decision or documentation that meets the following criteria:

1. A major program-level decision that will affect the overall design or have significant effect on 2020 Census operations or systems.
2. A major policy decision or change that will affect the overall design or significantly impact 2020 Census operations or systems.
3. A report that documents the research and testing for 2020 Census operations or systems.
